SEWING MACHINES.

THE EMPIRE SHUTTLE MACHINE PATENTED PERRUARY 14th, 1866. Salesroom, 510 Broadway, ..... New York.

This Machine is constructed on an entirely new principle of Mechanism, possessing many rare and valuable improvements, having been examined by the most profound experts, and pronounced to be simplicity and perfection combined. The following are the principal objections urged against Sewing Machines:

- Excessive fatigue to [ 4. Incapacity to sew evthe operator.

2.—Liability to get cut of order.

3.—Expense, trouble, & try description of material.

5.—A disagreeable noise while in operation. time in repairing.
THE EMPIRE SEWING MACHINE IS EXEMPT FROM

ALL THESE OBJECTIONS,
It has a straight needle, perpendicular action,
makes the LOCK or shuttle stitch, which will neither rip nor ravel, and is alike on both sides : performs perfect sewing on every description of material, from leather to the fluest Nansook muslin, with cotton, linen, or slik thread from the coarsest to the Having neither CAM nor COG WHEEL, and the

It requires fifty per cent, less to drive it than any other machine in market. A girl of twelve years of age can work it steadily, without fatigue or in-Its strength and WONDERFUL SIMPLICITY of con-struction render it almost impossible to get out of order, and is GUARANTEED by the company to We respectfully invite all those who may desire

to supply themselves with a superior article, to call and examine this unrivalled machine. But in a more special manner do we solicit the Dress Makers. rehant Tailors, Hoop-skirt Manufacturers, Corset Makers,

REAT REDUCTION IN THE PRICES! SINGER & COMPANY'S STANDARD MACHINES. Well known to be the best for manufacturing pur

poses; No. 1, Standard Shnutle Machine, formerly sold at \$90, reduced to No. 2, Standard Shuttle Machine, formerly sold at \$100, reduced to ..... \$75

Is the best Machine in the world for Family Sewing and Light Manufacturing purposes: Price, (with hemmer,) and beautifully ornamented, \$50.

The Nos. 1 and 2 Machines are of great capacity and application for macufa turing purposes.

Our No. 3 Machines are especially adapted to kinds of light and heavy teather work, in carria trimming, boot and shoe making, barness making etc., etc. They are of extra size, with an arm to enough to take under it and stitch the largest s dashes. There is scarcely any part of a Trimma stitching that cannot be better done with them the by hand; so, too, the saving of time and labor very great. The table of these machines is inches long, and the shuttle will hold six times usual quantity of thread. The large muchin work as fast as small ones.

We would ask for our Letter A Machines, a special attention of Vest Makers and Dress Make attention at the who want Machines for light many toring purposes. They embody the principles of standard machines, making 1 ke them, the int-locked stitch, and are destined to be as celebrat for family sewing and light manufacturing purpo-25 93

2.67 We have made the above REDUCTION IN PRICES with the two-fold view of benefitting the public and ourselves. The public have been swindled by spurious machines made in imitation of ours. The metal in them, from the iron casting to the smallest piece, is of poor quality. Their makers have not the means to do their work well. They are hid away in secret places, where it would be impossible to have at their command the proper mechanical appliances. It is only by doing a great business, and having extensive manufacturing es-tablishments, that good machines can be made at moderate prices. The best designed machines, BADLY MADE, are always liable to get out of or-

der, and are sure to cost considerable trouble and money to keep them in repair.

The qualities to be looked for in a Machine are: Certainty of correct action at all rates of speed, simplicity of construction, great durability, and rapidity of operation with the least labor. Machines to combine these essential qualities, must be made of the best metal and finished to perfection. We have the ways and means, on a grand scale, to do this. The purchasers of Machines, whose daily bread it may concern, will find that those having 40 9 1 the above qualities not only work well at rapid as well as slow rates of speed, but last long in the fin41 8 7 est possible working order. THE CONSTITUTION AND THE UNION. The pay is from \$13 to \$21 per month and \$100 Bounty at the close of the war, it is also expected that each volunteer will receive 160 acres of land, Active means are being taken to fix this regiment rapidly and it is thought it will be got ready to take up the line of march soon, if you are anxious to serve your country voluntarily, and avoid being drafted—which it is earnestly to be hoped will not have to be resorted to in this state.

Walk Up and Put Down Your Name! 2d Lieut. JOHN B. SPAFFORD, Porrysburg, Oct., 1861. Recruiting Officer,

MRS. WINSLOW. An experienced Nurse and Female Physician, presents to the attention of mothers, her SOOTHING SYRUP, FOR CHILDREN TEETHING.

which greatly facilitates the process of teething, by softening the gums, reducing all inflammation—will allay all pain and spasmodic action, and is SURE TO REGULATE THE BOWELS. Depend upon it, mothers, it will give rest to your-

selves, and RELEIP AND HEALTH TO YOUR INFANTS. It not only relieves the child from pain, but invigorates the stomach and bowels, correous soldity, and gives tone and energy to the whole system. It will

almost instantly relieve GRIPING IN THE BOWELS, AND WIND COLIC and overcome convulsions, which, if not speedily re-medied, end in death. We believe it the best and surest remedy in the world, in all cases of Dysen-tery and Diarrheea in children, whether it arises from terthing, or from any other cause. We would say to every mother who has a child suffering from any of the foregoing complaints—do not let your prejudices, nor the prejudices of others, stand between you and your suffering child, and the relief that will be sures—yes, absolutely sure—to follow the use of this medicine, if timely used. Full directions for using will necessary to such bottle. using will accompany each bottle. None genuine unless the fac-simile of CURTIS & PERKINS.
